

Various improvements, such as

- DeepFlow definitions, suggestions and validations can be copied
- No more validation on invoices with a total amount = 0. Invoices with this amount can now also be processed.

Adjustments to the proposals for the update on 31 July 2024

In this [article](#) you will find all the information on the adjustments to the proposals in relation to the update of 31 July 2024.

New support page

The knowledge centre of the DeepCloud universe has been completely redesigned to provide an intuitive and user-friendly platform for supporting and using our products. The support articles are available in German and English at the time of release. French and Italian will be added over the next few weeks. The new support page can be accessed at support.deepcloud.swiss or directly from the applications.

The screenshot shows the top navigation bar with the DeepCloud logo, links for Pricing, Newsroom, and Support, a Contact button, and language options (En and a globe icon). Below the navigation is a breadcrumb for Support and a main heading "Hi. How can we help?". A search bar is present with the placeholder "Search for help articles ...". To the right is a "Topics" sidebar with links for DeepBox, DeepCloud, DeepID, DeepO, DeepSign, DeepV, Integrations, and Release Notes. The main content area displays two articles:

- Update suggestions**
Adjustments to suggestions for the update on July 31, 2024. Previously, only the first applicable suggestion was executed, starting with the specific combination "this address..."
[DeepO](#) • [Global definitions](#)
- SSO Group Mapping**
Prerequisites Verified domain SSO configured and activated SSO Group Mapping
With Group Mappings, owners and admins can link groups from their identity provider (IdP) to the ...
[DeepCloud](#) • [Organization Info](#)

Various improvements to the mobile viewport:

- "Infinity Loader" has been implemented: As with the tablet or desktop viewport, files are now loaded automatically
- New functions such as multiple selection, comments or tags are now also available on the smallest viewport
- Improved navigation for subfolders in the File Explorer
- Improvements to the info panel
- Various minor bug fixes and improvements to UI / UX

Various bug fixes and improvements, such as

- Fixes to the deadline filter
- Improvements to the language handling
- Fixed a bug where the 'Move to' function did not display all boxes in certain cases
- Minor improvements to the 'Trash' folder

SSO update: Federated users with the Member role can not create organisations

Users with the Member role can no longer create organisations if these users access their account via SSO login. This improvement is intended to prevent the creation of duplicate or unwanted organisations for SSO users.

Users with the Admin and Owner role can still create new organisations.

New EUR invoicing for the following countries:

- Germany
- Austria
- France
- Italy

If the organisation's address is from one of the above countries, the invoice will be issued in EUR currency with 0% VAT. The organisations concerned have received further information by e-mail.

Updates for seal invoicing

- Certificates are invoiced monthly
- Seals are billed per use (CHF 0.20 per seal)
- Seal packages can be purchased for lower-priced seals
