New DeepAdmin (account management)

A new user-friendly interface for account management has been made available. This redesign has improved navigation and created a clear overview, making it easier to use. The settings for the electronic seal can also be made in the new DeepAdmin. You can find more information about the seal [here](#).

OKTA for SSO group mapping

With the release of 06/06/2024, group mapping was made available for SSO configuration. Group mapping can now also be used with OKTA as a Customer Identity Cloud. Further information on this topic can be found [here](#).

Various improvements to the new onboarding process for Abacus customers

Various improvements have been made to the onboarding process, which has been simplified for Abacus customers.
