- Accessibility Improvements
- Usability and UX Improvements
- Improved flow when creating account from Marketing websites

Various bug fixes and improvements, such as

- Improvements to the display of uploaded visual signatures
- Various improvements to approver flow
- Improvement to signature placeholders: Already signed signature placeholders are now ignored if a signed file is re-uploaded
- DeepSign Cockpit: Improved Upload Area for uploading via Drag & Drop
- Improvements to Upload Dialogue (UI improved for special cases and better handling when uploading non supported file types)
- Fixed Bug where translations could be displayed incorrectly in special circumstances
- If a signed document is now downloaded from DeepSign, it will have extension "_signed" (e.g. filename_signed.pdf)
- New check when uploading a file: If file is locked by a signature, a new warning is shown
- Improved stability and performance
- Small UX & UI improvements to Cockpit
- Improved Error Handling
- Updated Dependencies

Various bug fixes and improvements, such as

- Stability and Performance Improvements
- Improvements to the management of DeepMail in DeepAdmin
- Improvements to subscription view in DeepAdmin

DeepForms now available in DeepAdmin Subscription Management

The billing of DeepForms starts from 01/04/2025

DeepForms - Formulare einfach erstellen und versenden

Wenn Sie Ihr Konto zusammen mit einer anderen Anwendung (z. B. einer Abacus-Installation) verwenden, können Sie mit DeepForms digitale Formulare erstellen, die dann automatisch über die Anwendung verarbeitet werden können.

Die Aktivierung von DeepForms erfolgt direkt in der Drittanwendung.
