

Various improvements, such as

- Validation of data types for fields such as account, cost center, etc. if the box was created from Abacus
- Various optimizations in the detection of value-added tax

The screenshot displays the DeepCloud interface for processing an invoice. On the left, a sidebar contains sections for 'Vendor', 'Property details', and 'Other'. The 'Vendor' section shows details for 'CENOTE AG' at 'Abacus-Platz 1, 9301 Wittenbach, CH'. The 'Other' section includes fields for 'Account', 'CostCenter', 'Project', 'Access', 'Contract', and 'Notes'. A red error message 'Account must be a whole number' is shown next to the 'Account' field, which contains the value '5abc'. Below the sidebar are buttons for 'Reject & Delete', 'Skip & Next', and 'Approve & Process', along with the 'Target Folder: Invoices in'.

The main area shows a preview of the invoice document from 'CENOTE GASTRONOMIE'. The document includes the company name, address, and a table of items. The table has columns for 'Item', 'Description', 'Quantity', 'Unit', 'Price', and 'Total'. The total amount is 1000.00 CHF. The document is dated 21. October 2025.

At the bottom, there is a 'VAT' section with a table of VAT details. The table has columns for 'Account', 'Code', 'VAT Date', 'VAT Rate', 'VAT Base', and 'VAT Amount'. The VAT Rate is 0.0%, the VAT Base is 1000.00, and the VAT Amount is 0.00. The total amount is 1000.00 CHF.
